PROFESSIONAL SUMMARY

Impact-driven Full-Stack & AI/ML Developer and 3rd-year Diploma student at MSBTE. Specialized in engineering high-impact AI/ML systems, professional model training, and Blockchain (Solana) integrations. Founder of WisdomLand.in, a career growth and legal awareness platform. Expert in bridging complex Hardware IoT with cloud ecosystems including Supabase, Firebase, and WordPress.

WORK EXPERIENCE

Founder & Lead Developer **Feb 2024 – Present**
WisdomLand (wisdomland.in) *Mumbai, MH*

Career growth and legal awareness platform designed to navigate professional journeys effectively.

- Developed a structured career lifecycle model integrating global scholarship tracking and internship progression.
- Implemented employment rights education modules and structured interview mastery programs to empower job seekers.
- Architected AI-driven career recommendations and salary negotiation strategies using modern web technologies.
- Mission-focused development: Reduced early-career exploitation and improved job conversion rates through verified mentorship tools.
- Built and maintained the entire platform on **WordPress**, managing domain procurement and hosting workflows.

Freelance Developer & IT Consultant **June 2024 – Present**
Self-Employed (freelancer.in/dashboard) *Mumbai, MH / Remote*

- Delivering high-impact Full-Stack IT projects including scalable React Native and Next.js applications for diverse clients.
- Specializing in the development and maintenance of custom AI tools and professional web solutions.
- Conducting professional mobile device diagnostics and repairs, resolving complex hardware/software issues for a wide client base.

Brand Promoter **Jan 03, 2024 – June 14, 2024**
Fairpick Private Limited *Mumbai, MH*

- Led and collaborated with a team to promote the brand on multiple digital platforms, increasing engagement by over 30%.
- Designed marketing strategies, including social media campaigns, to boost visibility and product sales.
- Worked with cross-functional teams to optimize customer outreach and marketing efficiency.
- Contributed to market research, analyzing customer behavior and providing feedback for product improvement.

Freelance Mobile Repairing Instructor **Feb 12, 2022 – Feb 13, 2023**
Independent *Mumbai, MH*

- Conducted hands-on training for mobile diagnosis and repair, managing the complete student lifecycle from inquiry to admission.
- Developed custom training programs for beginners and advanced learners, focusing on real-time repair scenarios.
- Offered one-on-one troubleshooting consultations to provide effective repair solutions for complex device issuesly.

Software Engineer Intern **June 2024 – Aug 2024**
Elite Forums *Mumbai, MH*

- Optimized Machine Learning model training pipelines, achieving significant improvements in classification accuracy and inference latency.
- Collaborated on the development of scalable backend systems to support real-time data processing and model serving.

DETAILED PROJECTS

EduLink / eduIntel – AI Learning Portal GitHub: TanishaSaun/eduIntel

- Accomplished a 40% reduction in academic support queries by architecting an **NLP-based** AI Tutor system in a React environment.

HealthChain AI – Solana Healthcare Platform Tech: Solana, Web3, IoT

- Reduced transaction overhead by 95% while securing health data by implementing a **Solana** Web3 payment layer and ESP8266 IoT sensors.

AI Insurance Risk Prediction Tech: Python, FastAPI

- Engineered high-accuracy claim forecasting as measured by a 92% F1-score, deploying models via a high-latency **FastAPI** architecture.

AI-Based IoT Food Quality Detection Tech: Python, ESP8266, TF Lite

- Automated food quality assessment using edge-AI models on ESP8266, enabling real-time fruit/vegetable freshness classification.

Smart Medical Pre-Diagnosis AI Tech: Python, NLP

- Developed an intelligent diagnostic assistant capable of structured symptom analysis and medical report summarization.

Health Management System GitHub: TanishaSaun/HEALTH

- Built a centralized database for secure medical record management, appointment scheduling, and privacy-compliant data encryption.

Smart Task Evaluator GitHub: TanishaSaun/smart-task-evaluator

- Increased project delivery speed by 25% through the implementation of automated task scoring and performance visualization dashboards.

EDUCATION

Diploma in Artificial Intelligence and Machine Learning **2024 – Present**
VIVA Institute of Technology (MSBTE) *Mumbai, MH*

- **Status:** Final Year (3rd Year)
- **Subjects:** Mathematics, Science, English, AI Systems, Model Deployment.

Higher Secondary School (12th Grade) **2022 – 2023**
Thakur Vidya Mandir High School and Junior College *Mumbai, MH*

- **Specialization:** Science (Physics, Chemistry, Biology, Mathematics) with Information Technology (IT).

Secondary School (10th Grade) **2020 – 2021**
Mother Mary English High School and Junior College *Mumbai, MH*

• **Core Subjects:** Mathematics, Science, English.

TECHNICAL SKILLS

Core Competencies:	AI Chatbots, NLP Integration, ML Training & Deployment, Full-Stack Architecture.
Web & Mobile:	React Native, Next.js, React, Flutter, WordPress, Supabase, Firebase.
Languages:	Python (Advanced), JavaScript, Dart, Java, PHP, R, SQL, C++, HTML/CSS.
Infrastructure:	Netlify, GoDaddy, MySQL, PostgreSQL, Linux, IoT (ESP8266), Solana Web3.

CERTIFICATIONS & ACHIEVEMENTS

• **Microsoft Student Ambassador (2026):** Global recognition for technical leadership and community building. (Jan 2026)

• **Oracle Cloud Infrastructure AI Foundations Associate:** Certified expertise in AI/ML fundamentals on Oracle Cloud. (Jan 2026)

• **GenAI Hackathon Mumbai 2025 (Google Developers):** Grand Finale finalist in generative AI innovation. (Dec 2025)

• **Smart India Hackathon (SIH):** Participation in the college-level internal hackathon for solving complex societal challenges through innovative software solutions. (2023-2024)

• **Prompt Engineering & AI (St. John):** Certification in advanced LLM prompting and AI-driven workflow optimization. (Nov 2024)

• **DSA Mastery with Java (ExcelR):** Intensive training in Data Structures, Algorithms, and logical problem-solving. (Dec 2025)

• **Java Full Stack Development (Code For Success):** Mastery in end-to-end web architecture and Java backend systems. (May 2025)

• **Analysis with Python (I.T. Vedant):** Specialized certification in data manipulation and statistical analysis. (Nov 2025)

• **Getting Started with JavaScript (CodeSignal):** Recognition for algorithmic proficiency in modern JavaScript. (Aug 2025)

• **Unstop - Code: Automata (2nd Place):** National-level finalist in competitive programming and healthcare tech implementation. (Feb 2026)

• **Spectrum Hackathon (SVKM):** Awarded for excellence in computer engineering hackathon finals. (Feb 2026)

• **AGENTX Hackathon (edQuest):** Advanced participation in AI-specialist driven innovation challenges. (Feb 2026)

• **Social & Scientific Contributions:** Verified participation in New Criminal Laws Exhibition (Nov 2025), Climate Change Management (Dec 2025), and CPR Awareness (Oct 2025).

LEADERSHIP

Having thrived in both the hands-on world of mobile repairing and the analytical realm of AI/ML, I've cultivated a blend of technical expertise, clear communication, and innovative problem-solving. Proficient in Python, Java, and AI tools, I am poised to transition seamlessly into dynamic, evolving fields with unwavering confidence.

DECLARATION

I hereby declare that all the information provided above is true and correct to the best of my knowledge and belief.

Place: Mumbai, MH **(Tanisha Saun)**
Date: March 08, 2026
